PROFESSIONALLY ACCREDITED

At Scott Risk Management we take protecting your business incredibly seriously. It's what we do.

That's why it's so important that we have the professional recognition from organisations including IOSH, ROSPA and OSHCR.

Membership to professional organisations such as ROSPA and IOSH give us access to the latest news and updates from industry, plus access to a range of specialist experts in HS, HR that we can refer client queries to for second opinions where critical.

These accreditations demonstrate our commitment to protect our business and yours, by delivering high industry standards which are internationally recognised and highly regarded.

DELIVERING PEACE OF MIND

At Scott Risk Management we want to help businesses like yours to operate 365 days a year, safely.

We're experts in managing risk, with real world, hands on, qualified experience.

This means we're committed to helping you meet your legislative requirements, whilst enabling you to continue trading efficiently and profitably.

Our services are bespoke to you, and we're often told by clients that they feel we are simply a part of the team. By taking time to understand the nuances of your business we pride ourselves on the ability to fit seamlessly into and work alongside your different departments to add value.

The Scott Risk Management team are here to help you navigate your health and safety needs, balanced with the day to day realities of your operations.

By understanding your challenges, we can help you find and deliver the answers.

Our mission is to deliver peace of mind.

Meet Liam Scott MSc. (SRM), CMIOSH

Liam Scott is the Principal Consultant and MD of Scott Risk Management, and with over 17 years' experience he is passionate about providing outstanding service levels to meet your business needs.

With a history steeped in knowledge and hands on experience, Liam leads the team to provide support and services to clients 7 days a week, delivered with qualifications including:

- Chartered Member of IOSH (CMIOSH)
- Masters Degree in Safety and Risk Management
- IEMA Certificate in Environmental Management
- Senior Construction Manager – Black CSCS card holder

“Although some may say risk management is not the most exciting topic, for me it’s an ever changing landscape to navigate with our clients. I’m genuinely enthusiastic about what we do and have built a team of like minded individuals to deliver our service with positive energy and a can-do attitude.”

Liam Scott - Principal Consultant & Managing Director

CASE STUDY 1 - LUCIDEON REORGANISE & DELIVER

CHALLENGE

Lucideon is an industry leading R&D business that creates and delivers game-changing materials technologies. Lucideon undertake activities that would be classified as high risk without the correct management processes in place.

SRM were invited to tender to help Lucideon create the building blocks for a comprehensive health and safety solution that would protect its people, clients and business.

There were significant challenges across the business that needed to be understood before action could be taken. The challenge of engaging the team across multiple levels and roles was imperative for a successful outcome.

SOLUTION

Liam and the SRM team firstly took time to understand Lucideon, by engaging with all the departments across the business to then pull together a focused action plan.

Some of the actions include:

- Addressing the urgent issues that needed immediate resolution, while creating the building blocks for a long term plan
- Taking time to understand the business, it's challenges and risks to ensure that the company met its legal health and safety obligations
- Implementing accredited health and safety training to managers, and building a structured plan to cascade relevant training at all levels
- Formation of a health and safety committee to enable effective and open two way communication, while raising standards
- Creation of a roadmap for longer term (2-3 years) strategic improvement and development plans that continually align with the business needs

LUCIDEON

Materials Development and
Commercialization

BENEFITS

- Increased confirmed compliance within the business through audit programmes
- An engaged and upskilled team culture at all levels, so that everyone is working together to achieve a safe and professional outcome which has led to successes of worker led safety interventions
- Improved tendering performance, with clarity of ongoing activities.
- Learnings from incidents and near misses.
- Providing an external support resource means that SRM work objectively with Lucideon, bringing external perspectives and experiences to the business to deliver measurable results.

“Liam proactively works to find a commercial solution, bringing team members of all levels on the journey. His approach is collaborative, tactical and strategic, underpinned with a pragmatic, engaging and professional delivery. Working with Liam and the SRM team is an absolute pleasure and we know that we are in safe hands. Knowing we have SRM as part of our team gives Lucideon peace of mind.”

Sian Beaty, Non-Exec Chairperson - Lucideon HS committee

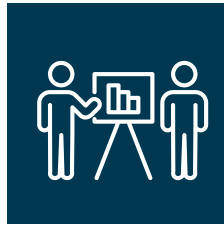

PRODUCTS AND SERVICES

We understand that each business has different challenges, that's why SRM has the flexibility to work with you to achieve your specific goals or to help you find solutions.

These may be one off projects or audits, a fixed contract or as a mentor. We find that a conversation to discuss your needs is the best place to start.

Team or 1-2-1
Mentoring

When you work with SRM you benefit from our commercial investment in the systems we use, or we can integrate our approach with your businesses systems. Our aim is to deliver peace of mind in whatever way works best for you.

We believe that continuous investment is an essential part of business, that's why over recent years we've invested in technology including drone inspection and technology based solutions to deliver at height inspection support, and providing the ability to survey hard to reach locations. In addition technology based inspection and auditing reduces time writing up reports, which is now driven by the software.

Accessible information on MS Teams and SharePoint sites allows information sharing and delivery management by SRM remotely. This ensures smooth access to documents and real time data flow.

To support your business SRM deliver a wide range of training programmes, either as one off solutions or as part of your contract. Keeping your team members training up to date is a legal requirement, and helps protect your business, team and reputation.

CASE STUDY 2 - NATIONAL GRID FOUNDATIONS SET FOR LONGER TERM BENEFITS

WORKING WITH NATIONAL GRID

National Grid plays a vital role in connecting millions of people to the energy they use, while continually seeking ways to make the energy system cleaner.

The team at National Grid sometimes need to bring in external resources for specific projects. SRM has recently worked as part of the team delivering elements of the North Sea Link project, a 720 kilometre subsea interconnector linking the electricity systems of the UK and Norway.

CHOOSING AN EXTERNAL CONTRACTOR

Working with an external contractor allows National Grid to bring in specific skill sets to help deliver elements of a project. For the North Sea Link project, National Grid needed a company that could bring an experienced and confident approach to taking on challenges and working methodically and openly to find solutions.

Working with external contractors is seen as a service, not a resource. Whilst they may not know the subject matter in depth before beginning the contract, it is imperative that they have the ability to hit the ground running and absorb the culture and brief whilst working tirelessly to deliver a workable solution.

It is vital that contractors can fit seamlessly into an existing team whilst remaining objective.

BENEFITS

Leaders looking for support need the right partner to give problems or challenges to, confident that they will work within their scope of capabilities to complement the team and deliver a solution.

Whilst analysis is an essential part of any project; this is something that many people can handle. SRM deliver the third dimension to bring the analysis to life with real world, practical elements and results.

Moving forward, SRM has been commissioned to work on the Viking Link, a 1400 MW high volume direct current electricity link between British and Danish transmission systems.

"I have worked with SRM on various projects, and on every one I have been impressed with Liam's excellent problem solving, analytical thinking and logical mindset. I am confident that he will deliver a well considered solution that meets the business needs."

Nigel Lilley, National Grid

DRONE SERVICES

Thank you to the European Regional Development Fund (ERDF) for the **50%** funding, enabling SRM to deliver these two new services.

Scott Risk Management is now able to meet a range of needs using this DJI Mini 3 Pro Drone, delivering.

Fully licenced equipment and pilots, meeting and exceeding the Civil Aviation Authority standards, SRM can provide drone services for:

- Inspection of buildings (without having to physically access high risk areas)
- Overview of site layouts, great for planning and presentation material
- Monitoring of large site spaces
- Training material
- Induction video filming

NOISE MONITORING

Using state of the art technology and integration with hearing PPE standards, the noise meter technology allows for concise monitoring and assessment of your workplace, and recommendations for reduction of noise, and worker protections.

The Optimus red sound level meters use the very latest digital technology and industrial design, making it the ideal instrument for Occupational and Industrial Hygiene noise measurements.

- Occupational & industrial hygiene noise evaluations
- Noise at work surveys & noise exposure calculations
- Hearing protector selection using HML or octave band methods
- Machinery noise tests
- Noise ordinance & community noise assessments
- General noise measurements

SOCIAL VALUE

Scott Risk Management sponsor the Randlay Colts U11 girls football team, based in Telford.

Liam Scott stated, *“My hope is that by giving these youngsters the opportunity to play football, with the right guidance from coaches and the right equipment funded through sponsorship, they are inspired to continue participating in sports and reaping the benefits into their teenage years. I was shocked to find that this age is typically when girls move away from sporting activity and we wanted to provide support to encourage them to enjoy the positive impact that sport can deliver.”*

Jack Sweeney, Shawbury United sponsored by SRM

In addition to supporting Randlay Colts, SRM sponsored defender Jack Sweeney at Shawbury United. On loan from Telford United, Jack is a young footballer showing a promising career. SRM are invested in supporting local talent.

Shropshire
Chamber of
Commerce

Connecting with local businesses

Although our clients are based right across the UK, we feel it is important to stay connected with the local business community in Shropshire.

That's why we've been a member of the Shropshire Chamber of Commerce since we launched.

HERE TO HELP

SRM is committed to supporting businesses with a wide range of services.

We often find that the best place to start is with an exploratory conversation to understand your individual challenges.

This first discussion could be face to face or online, whatever suits your business. At some stage we would need to make a site visit to help us understand your operation further.

Get in touch to see how SRM can deliver peace of mind for your business.
